PROFESSIONAL SUMMARY

I am a Full Stack Developer with hands-on experience in front-end and back-end development, AI integration, and system deployment. Passionate about building reliable, user-friendly applications and continuously improving my skills through real-world development and problem-solving.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | 2026

ProFormaX - Green Building Assessment System

- Developed and maintained full-stack features using Next.js, React, Laravel and MySQL.
- Implemented role-based assessments, evidence review, certificates and notifications.
- Integrated AI-assisted features and personalised assessment recommendations.
- Improved security, authentication, testing and private evidence management.
- Managed production deployment using GitHub, Vercel and Hostinger.

Industrial Training Intern | March - August 2025

Faculty of Computer Science and Information Technology (FCSIT), Universiti Malaysia Sarawak (UNIMAS)

- Developed software and AI projects using Laravel, Flutter, Python, Vertex AI, Android Studio and API integration.
 - Developed a Vertex AI chatbot, integrated it into Android using Retrofit, and worked on Laravel web integration.
 - Developed a Laravel-based Green Building Index (GBI) system and designed its user interface using Figma.
 - Conducted an SLR on LLMs and Gamification, screening and analysing over 700 academic articles.
 - Authored and presented a 6-page IEEE-format research paper at the CITA 2025 Conference.
 - Enhanced the SELAB Management System and assisted with survey data analysis and reporting.
-

RESEARCH EXPERIENCE

Final Year Project Researcher & Developer | 2025 - 2026

Personalised Chatbox for Role-Based Guidance and Group Accountability

Faculty of Computer Science and Information Technology, UNIMAS

- Researched and developed an AI-assisted system for role-based guidance and group accountability.
 - Conducted a 47-respondent requirements survey and analysed user needs to guide development.
 - Evaluated the system through functional and usability testing.
-

EDUCATION

Bachelor of Computer Science (Multimedia Computing) with Honours | 2022 - 2026

Universiti Malaysia Sarawak (UNIMAS), Kota Samarahan, Sarawak

- CGPA: 3.35
- Relevant Coursework: Web Development, Database Management, Computer Security, Distributed Systems, Data Visualisation.

Sijil Tinggi Persekolahan Malaysia (STPM) - Science Stream

SMK Muara Tuang, Kota Samarahan, Sarawak

- CGPA: 2.67

**TECHNICAL
SKILLS**

- Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Material UI
- Backend: Laravel, PHP, Node.js, Express.js, REST APIs
- Databases: MySQL, MongoDB
- Tools & Deployment: Git, GitHub, Docker, Vercel, Hostinger, Nginx
- Other: OpenAI API, JWT Authentication, Role-Based Access Control, Automated Testing
